

## Experience

### HireSweet

*Fullstack developer*

Apr 2022 - Now

Maintained a tech talent marketplace for startups, divided into a client-facing SPA and a candidate-facing one. Developed a recruitment CRM aimed at scaleups and staffing-oriented companies, as part of a team of 2 to 4 developers. Used **TypeScript**, **React**, **Less**, **Node**, **MongoDB** and **GraphQL**. Regularly reviewed build systems, coding practices and application performance with the CTO.

### HeliosX

*Frontend developer*

May 2020 - Jul 2020

Helped with UI design and implementation for new features in e-commerce applications using **Vue**, **SASS** and **vanilla JavaScript**.

### Dotmatics

*Frontend developer*

Oct 2019 - Apr 2020

Maintained enterprise-grade chemistry applications. Implemented a complete UI redesign to fit the company's new brand identity. Used **vanilla JavaScript** and **jQuery**.

### Altran Technologies

*Junior consultant engineer*

Oct 2017 - Sept 2019

Maintained a **JavaEE** application used by every region in France to assign middle schoolers to high schools (or equivalent) using a variety of customisable criteria such as grades or location. Technologies used include **Spring**, **Hibernate**, **Quartz**, **IBM DB2** and **Apache Struts 1**. Used **Angular 8** and **CSS** to design and build the *Téléservice d'Affectation*, a web application to help parents find and choose a high school for their children.

## Education

### Engineering Degree

TELECOM Nancy

*Software Engineering*

Sept 2014 - Sept 2017

### A-Levels

Lycée Louis Pasteur, Besançon

*Sciences*

Jul 2011

## Skills

### Languages

 French - Native

 English - C2  
[efset.org/cert/N18Soj](https://efset.org/cert/N18Soj)

### Technologies

 TypeScript  React  GraphQL  Node  
 MongoDB  HTML  Less  CSS  
 JavaScript  Python  Vue  Angular  
 Java
